

# No Deal - No Sense

We are hurtling towards a No Deal Brexit driven by a reckless Prime Minister.

No Deal was not an option on the ballot paper. Even the 2016 Leave campaign was clear that we would leave with a deal.

Free trade will immediately cease with the 27 countries in the EU and 28 other countries that have trade agreements with the EU. **No other countries trade on just WTO terms.**

No Deal will leave us in a **desperate & chaotic state**. Powerful countries like the USA will exploit this to get trade agreements on their terms, for example to **gain access to our NHS** for their commercial gain.

No Deal will mean Brexit just goes on for years and years of intractable bad tempered trade negotiations.

44% of our exports go to the EU27, only 8% of EU27 exports come to the UK. Playing chicken won't work.

**To guarantee that every vote counts we need to vote tactically, putting aside party politics to ensure we get the right result for our country. Vist [www.tactical-vote.uk](http://www.tactical-vote.uk)**
